

EduCode 2011 Automatic Fire Alarm Association

Michael Baker is the Training Director for the Automatic Fire Alarm Association. After his honorable discharge from the US Navy Submarine Service in 1978, Michael has worked as an electrician, project manager, and general manager within the electronic security and fire alarm system industry. Prior to joining the AFAA in 2002, he taught courses for the Oregon Electrical Apprenticeship program. He is a journeyman limited energy electrician in Oregon, a master specialty electrician in Washington and NICET Level IV certified. Michael has written several study guides to help people prepare for NICET examinations.
