Dr. S. K. Ghosh, President, S. K. Ghosh Associates Inc., Palatine, IL, is known internationally for his work in earthquake engineering. He has influenced seismic design provisions in the United States for many years by serving on or chairing numerous committees and advisory panels. He specializes in the analysis and design, including wind and earthquake resistant design, of reinforced and prestressed concrete structures. Dr. Ghosh is active on many national technical committees and is a fellow of ACI and PCI. He is a member of ACI Committee 318, Standard Building Code, the Masonry Standards Joint Committee, and the ASCE 7 Standard Committee (Minimum Design Loads for Buildings and Other Structures). He just completed a term as a member of the Board of Direction of ACI and a term as a member of the Board of Direction of EERI (Earthquake Engineering Research Institute). In addition to authoring many publications in the area of structural design, he has investigated and reported on structural performance in most recent earthquakes.

Ms. Susan Dowty, Vice President, S. K. Ghosh Associates Inc., Aliso Viejo, CA, received her Bachelor of Science degree in Civil Engineering from Cal Poly, San Luis Obispo in 1984 and her Master of Science degree from California State University, Long Beach in 1990. She is a registered civil and structural engineer in the State of California and has over twenty years experience in the administration and development of the Uniform Building Code provisions. She has played an active role in the development of structural provisions for the International Building Code, serving as the Structural Committee Secretariat. She has also been instrumental in the development of a number of structural engineering related publications produced by ICC and SKGA. She served as the consultant for the reformat of the ASCE 7-05 seismic provisions and has recently completed her four-year term on the California Building Standards Commission.
